## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-14 are allowed.
2. The following is an examiner's statement of reasons for allowance:
  - a. With respect to claim 1, the claims have been found allowable over the prior art of record because the prior art of record fails to teach or fairly suggest a magnetic structure for generating a uniform magnetic field capable of implementing NMR imaging of the head of a patient within a region of interest, comprising an annular section of permanent magnetic material and having a conical portion having a narrower end and a wider end and substantially inner and outer conical surfaces and a conical axis coincident with the common longitudinal axis, the narrower end being positioned closer to the region of interest than the wider end, the permanent magnetic section having a first value and a first orientation of remanence in combination with the remaining limitations of the claims.
  - b. With respect to claim 12, the claims have been found allowable over the prior art of record because the prior art of record fails to teach or fairly suggest a method of designing a magnetic structure for generating a uniform magnetic field capable of implementing NMR imaging of the head of a patient within a region of interest comprising the step of: maintaining constant the magnetostatic potential  $\Phi$  determined in step D, determining the coordinates for at least several more points along the annular surface of contact by calculation for  $\Phi=C_0$  to determine a profile for the annular surface of contact in combination with the remaining limitations of the claims.

- c. With respect to claims 2-11 and 13-14, the claims have been allowed due to their dependency on claims 1 and 12 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
